Salisbury VA Medical Center Women Veterans Comprehensive Health Center

The Salisbury VA is committed to meeting the unique needs of Women Veterans and delivering high quality health care. We work diligently to offer every woman Veteran the privacy, dignity, and sensitivity to gender-specific needs she deserves.

Our goal is to improve access to health care for women Veterans. Primary care, gender-specific care, and mental health services are all located within women's health. In this way we offer a multi-disciplinary approach.

Women's health care is also available at our Health Care Centers located in Charlotte and Kernersville. The Charlotte HCC is the largest health care center in the country and both offer a full range of specialty services.
